

Save on Diabetes Supplies With FSA Funds

FSAs can be used to cover a range of diabetes supplies and expenses. See a few of the most commonly covered items below.

1. **Continuous Glucose Monitors (CGMs)**
Devices and sensors for tracking blood glucose levels.
2. **Blood Glucose Meters (Glucometers)**
Devices for measuring blood sugar levels.
3. **Test Strips**
Used with glucose meters for blood sugar testing.
4. **Lancets and Lancing Devices**
For drawing blood samples.
5. **Insulin**
Includes insulin vials or prefilled pens (even if no prescription is required).
6. **Insulin Pumps and Supplies**
Devices for delivering insulin, along with tubing, cartridges, and other related accessories.
7. **Ketone Testing Supplies**
Test strips or meters for monitoring ketone levels in blood or urine.
8. **Alcohol Swabs**
For cleaning the skin before testing or injections.
9. **Syringes and Needles**
Used for insulin administration.

Other Eligible Expenses

1. **Diabetes Education**
Costs related to educational programs prescribed by a healthcare provider.
2. **Therapeutic Shoes or Inserts**
For individuals with diabetes-related foot conditions.
3. **Wound Care Supplies**
Bandages, gauze, and other items for treating diabetes-related wounds.
4. **Medication Copayments**
Copays for diabetes-related prescriptions.

Expenses Not Typically Covered

- Non-prescription vitamins or supplements (unless specifically prescribed for a condition).
- Food items marketed as “diabetes-friendly.”

How to Use FSA Funds

- **Receipts:** Keep itemized receipts for purchases as proof for FSA claims.
- **Approval:** Some items (like CGMs) might require a letter of medical necessity from a healthcare provider.

Always check your FSA plan’s specific rules, as coverage can vary depending on the employer’s plan administrator.
