

## Medical Records Requirements: Continuous Glucose Monitors

### Initial Qualification

CGM receiver has not been previously paid by Medicare.

#### ► Time Frame

Visit date is required within 6 months prior to ordering CGM and ongoing Reorders.

#### ► Medical Necessity

Narrative in the medical records includes all the following:

- Diagnosis: diabetes mellitus Type 1 or Type 2 (e.g. “DM”, “DMI” or “DMII”); and

One of the following

- Insulin treated; or
- Non-Insulin treated with recurrent (more than one) level 2 hypoglycemic events (<54mg/dl) that persist despite multiple attempts to adjust medication(s) and/or modify the diabetes treatment plan; or,
- Non-Insulin treated with history of one level 3 hypoglycemic event (<54mg/dl) characterized by altered mental and/or physical state requiring third-party assistance for treatment of hypoglycemia

### Ongoing Qualification

CGM receiver was previously paid by Medicare.

#### ► Time Frame

Visit date is required within 6 months prior to ordering CGM and ongoing Reorders.

#### ► Medical Necessity

Narrative in the medical records includes all the following:

- Diagnosis: diabetes mellitus Type 1 or Type 2 (e.g. “DM”, “DMI” or “DMII”); and
- Compliance: commentary that the patient is adhering to the CGM regimen and diabetes treatment plan

### ► Signatures

- Records are signed by the author of the record (this can be a clinician other than the prescriber); or
- If electronically signed, there is narrative affirming that the signature was applied electronically (i.e. “Electronically signed by”) or

**If the author’s signature is illegible or missing:**

- Signature Attestation Log must be signed by the author of the records

### ► Examples of Valid Insulin Medications

Medications that support insulin use (not all inclusive)
